PERTH accessory designer Poppy Lissiman is known for her psychedelic bags.

And her sunglasses, have been spotted on celebrities including Gwen Stefani, Jessica Alba and Selena Gomez.

Now she's turned her hand to fine jewellery, in collaboration with Atlas South Sea Pearls.

Lissiman won the chance after taking out the WA Fashion Awards Fine Details category in May. The result is the Eye See You collection, which features Lissiman's signature eye.

"Collaborations are a really great way to challenge not only yourself as a designer but also by showing your customers something they might not have considered before and cast a new light on it," she said.
