KICKING goals is what Emerchants does best lately.

Under its belt, the company holds big clients such as bet365, CrownBet, William Hill, Ladbrokes and Cash Convertors.

Chances are, if you hold prepaid debit or non-reloadable cards in your wallet, such as good food vouchers or Sportsbet EFTPOS cards, these are being managed by Emerchants.

More dollars were loaded on these cards than ever before in Europe and Australia during Emerchants' most recent reporting period.

This came through in profits, with Emerchants' prepaid European business seeing profit growth of 476 per cent over the period. Its Australian profits weren't quite as high, leading to a group profit rise of only 2 per cent.
