

Emerchants deal with Cash Converters

September 18, 2015 09:20 AM

Emerchants Limited (ASX:EML) says it's done a deal with Cash Converters International Limited (ASX:CCV) for Cash Converters to use Emerchants prepaid debit cards to disburse cash advance loan funds.

There are over 150 Cash Converters stores Australia-wide and following a 24 store trial the new agreement will expand the Emerchants solutions into 95 stores across the country.

The program will allow online customers to receive cash advances instantantly and allow in-store customers improved financial management.

The solution should be fully implemented in November.

Emerchants reported a net profit of \$2.86 million for the 2015 financial year.
